## Our Mission

*"If you want to go quickly, go alone. If you want to go far, go together." ~ African proverb*

Common Humanity Mission, Inc.: We are non-profit organization with a 501(c) (3) status. We are a social life skills development agency that labors in the field of life transitions. Addressing the social ills of various types of setbacks of social learning disabilities, incarceration addictions, homelessness, immaturity, and abandonment, we operate as social health engineers, labors in the field of life transitions; we are facilitators of mature social discourse, promoters of self-worth and educators of effective communication, reconnecting

the disconnected common mature benevolent community where there is no connection there is no growth while simultaneously promoting the maturation process.

Helping to aid and assist individuals in overcoming negative self-image, low self-esteem, hatred and delusion. And ultimately eliminate the illiterate, ignorant and hostile behavioral social language of obscurity. By going back to find the beauty of our essence, we would have fulfilled our motto of communicating with precision a clearer image to the world.

I am a Koheleth... One who is an assembler and facilitates the language of knowledge and peace. The name I've choose to go by which is suitable for me and the work task that has been bestowed on me.

Koheleth, Rev Mwalimu Kevin  
Executive Director

## Operation Pitch In

A day of reconciliation through self, family, friends, community and nation. As we protect and defend our integrity and dignity the benevolent way.

Self valuing and self worth is enlightening. Friends helping

friends is empowering. Families housing family is enriching. Organizations helping communities is encouraging.

Nations healing nations is inspiring. Through this exchange we can make a better society to live in, if we all

learn to take time and pitch in. So, lets make everyday an opportunity to pitch in... A Day of Reconciliation through acts of kindness.

"We fight to protect and defend our integrity with dignity the benevolent way."

## THE PRODUCT OF COMMON HUMANITY MISSION, INC.

The product of Common Humanity Mission, Inc. is (Self Worth) it is a mirror that reflects the antitheist of who you are as a spiritual being and the image that you are projecting as a human. The progress of science has brought humankind to a deeper understanding of the magnitude of the universe. Therefore the central element of the universe is a matter called water. Fire makes Earth, Earth makes Metal, Metal draws Water and Wood makes Fire. To go inside the human body Fire the Heart, Earth the Spleen Lungs is the Metal Kidneys water Liver Wood. If the Liver is burning the kidneys needs water they a must work in harmony as a family unit as an order duty responsibility that which they must give account for is based on the character integrity and dignity of the law of unity within the spirit of cooperation.

### **TO MISS THE MARK OF BRILLIANCE:**

- 1) If your brilliance is not adequately and properly **resonating** within you as result you will become ineffective. This brilliance must be structurally based on 3 principles character, integrity, dignity in connection with the law of unity from the position of the spirit of cooperation.
- 2) If your brilliance is not adequately and properly **cultivated** within you as result you will become ineffective. This brilliance must be structurally based on 3 principles character, integrity, dignity in connection with the law of unity from the position of the spirit of cooperation.
- 3) If your brilliance is not adequately and properly **facilitated** within you as result you will become ineffective. This brilliance must be structurally based on 3 principles character, integrity, dignity in connection with the law of unity from the position of the spirit of cooperation.
- 4) If your brilliance is not adequately and properly **administrated** within you as result you will become ineffective. This brilliance must be structurally based on 3 principles character, integrity, dignity in connection with the law of unity from the position of the spirit of cooperation.
- 5) If your brilliance is not adequately and properly **coordinated** within you as result you will become ineffective. This brilliance must be structurally based on 3 principles character, integrity, dignity in connection with the law of unity from the position of the spirit of cooperation.

**CONTINUE**

So the Task Effort Time Energy and Nature is to orchestrate this processes of life endeavors operating in the field of life transitions creating specialist:

- 1) Resonators
- 2) Cultivators
- 3) Facilitators
- 4) Administrators
- 5) Coordinators

So to come into this reality is to come with a conciliatory mindset in order for conciliatory healing to take place. Always, do you best to give a description to something or to someone, reconciling of differences. Thus, developing and enhancing the tolerance of synthesizing our effort based on the character integrity and dignity of the law of unity within the spirit of cooperation primarily readdressing social diversity.

The confidence of one's deep spiritual nature of brilliance must be managed without strife.

So the filters that the deep spiritual of ones brilliance must go through is what is called the maturation process consist of Understanding, Tolerance, Temperance, confidence and respect. That which is being taught is benevolence. All is based on the character integrity and dignity of the law of unity within the spirit of cooperation and the key component to it all is self-resiliency. The question is one of governance the problem is identity crisis the issue is character resolve and the need is spiritual guidance.

## COMMUNE OVAL EXPRESSION

### Living and Working Together

A commune people live together in determination of sharing possessions and responsibilities to that which they must give account for one to another, with sensitivity; this only occurs when the exchange is on a spiritual level and anything that remains or is in its natural state is spiritual. the progression of this maturation is to thoughtfully, intimately, honorably, collectively and creatively communicate a clearer more precise image to the world.

**“All humanity has a reason for being, like a cactus in the desert it will draw what it needs to exist.”**

**Sharing Responsibilities**

### OUR NINE POINT MATURATION TRAINING CURRICULUM

- 1) Our approach is progressive, universal, holistic, comprehensive and conscientious.
- 2) Our objective is to facilitate mature social discourse as we learn to reason from the premise of conversation.
- 3) Our goal is to minimize and ultimately eliminate illiteracy, ignorance, hostility and social impoverishment.
- 4) Our commune training sessions consists of those who are socially challenged with communication, diction vocabulary, written and inter-personal skills. Those who are emotionally challenged of feelings of inadequacy in their thoughts attitude, anxiety social depression abandonment and neglect. Those that are challenged in practically implementing, to put into effect the learned skills they acquired that creates business management opportunities for innovative change.
- 5) Our core values will establish opportunity, expression and appreciation.
- 6) Our vigil lectures series features the need for mature social discourse, psychological and physiological warfare; cultural hegemony and resurrecting unto a collective consciousness Etc.
- 7) Our (5) components of the maturation process are based on Understanding, Tolerance, Temperance, Confidence and Respect.
- 8) Our activities are Journaling, family atonement and reconciliation, role playing and public declaration.
- 9) Our pledge is dedicated of Family, Community, Country, and Spiritual Wisdom of Discipline, No Joy without Happiness and Finally No Me without you.

### CREATING A SUSTAINABLE ENVIRONMENT FOR THE YOUTH OF DC NOW!

**By: Franklyn M. Malone, CEO The 100 Fathers, Inc.**

**There is much concern in the Urban.** community by community leaders about the lack of options presented to our youth in the area of Sustainable Community Programs! After attending a Community meeting in the Mayfair Community last week in D.C. with the Ward 7 Drug Free Community, it became clear that in order for our community and our youth to co-exist peacefully there must be many more “Sustainable” community supports in place. Incarceration is the way of the pipeline to prison and supports over the years an unsustainable alternatives that has now created a return of” hundreds of Returning Citizens to a city that must be prepared to offer jobs, counselling, fatherhood support groups, flexible and accessible services, long term connection services, access to work, family focused services, housing and character enhancement just to name a few.

Youth Advocate magazine estimates that according to the latest statistics on cost per youth in the community we still spend approximately \$240 per youth per day to incarcerate them and about \$75.00 per youth per day to sustain them in the community. This has to change drastically. We must focus on the strengths and interest of our youth and families in the context of our homes, communities and neighborhoods.

What is done in an institution can be done better in the community through those who are dedicated to rebuilding lives and focus on the long term sustainable improvements that are showing promise and success with a strength based approach, cultural competence and individualized services such as Rites of Passage, Boyhood to Manhood Training and Girlhood to Woman hood Rites of Passage for girls.

To accomplish a safe and sane community the community leaders must reach out to your respective City Council and Mayor and legislate a way through this dilemma with open access to funding for evidence based, experienced and successful endeavors that create supports and services that are accessible, available and flexible. If we begin to look at where we are headed now, we will find a way to improve on the limited at best resources that require funding and long term accountability to the community.

This community must face the fact that sustained community enhancement requires three main principles; Prevention, Intervention and innovation.

We must demand a dedicated funding stream to prevent our youth from going into the pipeline to prison by funding programs such as reading to our young, boyhood to manhood, mentoring for success and family focused engagement of parents. We must create programs designed to intervene on those problems that require professional services such as drug addiction, violence prevention, gang warfare, and reactionary masculinity syndrome to change the paradigm for our young men of Color. Finally we must implement new and exciting out of the box ideas such as an all-boys school dedicated to breaking the pipeline to prison, work to provide more paid Government/business internships for our youth year round, require all construction to be accountable to our needs and enforce it vociferously.

**CONTINUE**

## TRIANGLE RESEARCH EXPRESSION

### CREATING A SUSTAINABLE ENVIRONMENT FOR THE YOUTH OF DC NOW!

We must put people to work. When a man has a job and can support his family he can be an asset to his community...

There should never be legislation that pays anyone not to commit a crime, but rather we need legislation to at help how we can put folk to work on all levels that can take advantage of a \$13 Billion dollar economy such as the economy of Washington D.C.

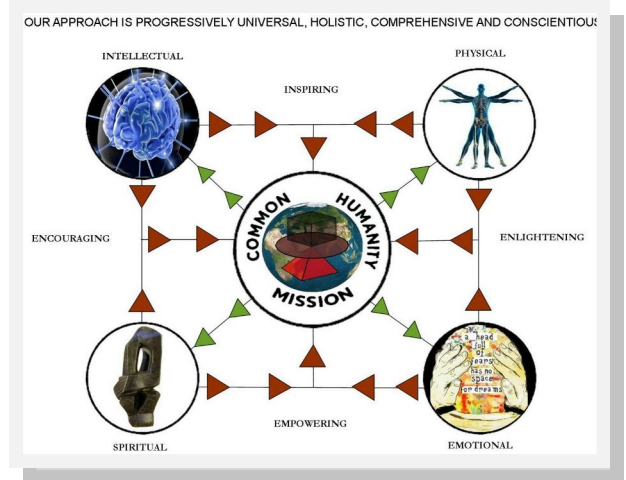

\*Commissioner Franklyn M. Malone is a founding Member of the Mayors New DC Commission on Fathers, Men and Boys and the CEO of the 100 Fathers Inc. Mr. Malone is an author, Fatherhood Expert and Award winning Community Activist who in 2012 was called personally by :President Barack Obama and heralded for his work with Fatherhood and Mentoring. Malone is the 2015 Cafritz Award Finalist and received a Lifetime Achievement Award at The NVCC. The 100 Fathers works closely with 15 other community organizations through the DC Fatherhood Coalition that sustain the families, fathers and children of DC through their programs and advocacy.

**100 Fathers Inc**

## UNDERSTANDING OUR 5 STAR APPROACH TOWARD SOCIAL ORDER AND STABILITY

- 1) Progressive connected or connection to resiliency of understanding that the task of the cause must be analytically synchronized which is designed to restore social credibility.
- 2) Universal connected or connection to resiliency of tolerance the effort of the cause must be adequately synthesized which is designed to readdress social diversity.
- 3) Holistic connected or connection to resiliency of temperance the time of the cause must be properly economized which is designed to revise social coherency.
- 4) Comprehensive connected or connection to resiliency of confidence; the energy of the cause, must be proficiently synergized which is designed to replenish social continuity.
- 5) Conscientious connected or connection to resiliency of respect that the nature of the cause must be synchronized, which is designed to reclaim social solidarity.

There is no need for slogan saying for slogan saying is not a program lets us build independent institutions, our people, family, and communities, by socially transitioning from ignorance to knowledge knowing that knowledge applied becomes intelligence. The first thing that must be removed is ignorance of self some of us have been slightly injured and some have been severely injured ignorance is the oppressor and we must stop allowing ignorance to oppress us.

This creation has given us all that are needed to deal with and handle any situation that we may find ourselves in. Everything that was raised up or brought about into the world of all creation is done so with a purpose, a cause to communicate with clarity the energy of productivity materialized united in this energy coming together in the oneness of consciousness....  
(Unity)

We must raise our children to protect us from ignorance, but yet they have been doing and act ignorant. We must raise our children to help us from being ignorant to the ways of a tyrant that oppresses through a variety of ways there the duty is to liberate our people from a variety of ways oppression. Thank you Imam Jamil Al-Amin.

The protector is a person or thing that protects someone or something, custodian, watchdog. The helper is a person who helps someone else assistant; deputy helpmate a selfless behavior must see the benefits. That we have a system that promotes growth and everything is a system of united energies.

Note: Society is under a social reconstruction, were feelings are becoming financially and extremely desensitized, thoughts demoralized, attitude dehumanized, communication/ language devitalized and activity destabilized.

The illiterate ignorance of hostility and social impoverishment How is it to be overcome in feelings thought, attitude, language/speech and activity/actions as it pertains to the adverse effect.

## COMMON HUMANITY MISSION, INC.

---

It is said every thought begins with a seed the seed then must be planted in soil watered, nurtured and cultivated. Land is the bases of power and that land it must be tilled for the purpose of production.

Agriculture than becomes the main source the economy so it is the developing an eco system not ego system. That eco system is to bring about the equilibrium of the environment that is the logical and rational thing for to do. The ego system throws off the equilibrium of the environment as a result the enslave mentality suffers in alienation.

The African civilization came out from the interior inside out rather than outside in rather to upstarts Greeks Romans etc. was from the outside in on the exterior which put them on the edge.

Alienated so they were mentally enslaved by being disjointed, disconnected feeling being desensitized, thoughts demoralized, attitude dehumanized communication devitalized that has do with business transactions and activity destabilized.

They were un-sympathetic un-empathetic and apathetic toward themselves so they became motivated and inspired. They felt they need to leave a legacy behind so the trained themselves to become men of combat men of war they were not concerned about the spoils until they realized the value in it and how it can be utilized to further improve and enhance their legacy and will give them credibility on the world stage. As a result they became men of commerce and trade.

These are central forms of expression around which and through they organize their political economical and social life so to see themselves as of value they had to depersonalize those whom they went to conquer you are a commodity a piece of property not a human being.

They philosophically convinced themselves of this what was the frame work of their philosophic thoughts and attitude, Hellenistic , manifest destiny and the white man's burden.

All are designed to do is reconcile the differences and indifferences that they have of themselves and thus minimize there intra ideological conflict and physical violence among themselves so they will impose and issue maximum conflict and violence toward you and i. need to develop skills the helps us to overcome indifferences, inadequacies, discrepancies and grievances.

A community is a social group of any size whose members reside in a specific locality, share government (control) and often have a common cultural and historical heritage.

Indifferent: having no particular interest or sympathy; unconcerned. Mediocre apathetic (lukewarm) to cringe as a beggar we must eradicate a system that produces the beggar no interest to help people live a quality life if not they will fall into recidivism which is a crime against humanity.

Decadence moral or cultural decline as characterized by excessive indulgence in pleasure or luxury self indulgence this is equivalent what is meant to be in pursuit of happiness sell indulgence of decadence. A falling away a process, condition, or period of decline, as in morals, art literature etc. deterioration emphasis on being morbid and perverse. Destroy lifeless and unhealthy resulting

from a diseased state of mind having or showing an unwholesome tendency to dwell on gruesome or glooming matters horrible pathological. (Psychopath) criminogenic needs.

Psychopath is a person suffering from chronic mental disorder abnormal or violent social behavior.

Inadequate lacking the quality or quantity required; insufficient for a purpose. Poor or poverty marginalized, A person unable to deal with a situation or with life, Psychiatry ineffectual in response to emotional, social, intellectual, and physical demands in the absence of any obvious mental or physical deficiency without guidance in need of a leader.

Discrepancy: a lack of compatibility or similarity between two or more facts or two or more people disparity conflict, The state or quality of being discrepant or in disagreement, as by displaying an unexpected or unacceptable difference.

Grievance a real or imagined wrong or other cause for complaint or protest especially unfair treatment an official statement of a complaint over something believed to be wrong or unfair. Legitimate grievances now I see Dr. Clark on the history of freedom movements of black Americans is a history of aspirations for nationality and dignity.

Firstly the Africans who were forcibly removed from their ancestral homelands to what is called or coined the new world that transformed their reality dramatically alienated, ostracized and polarized from any vital human community (how about that) dig this the system was to train the Africans to help maintain the local administration at the lowest level. It was an educational system that grew out of the African hereditary environment. This system designed to give young people pride and confidence as being Africans or at the highest level, of culture.

Note the black politician is locked in world of meaningless symbols which perpetuate cultural hegemony of the white ruling class. They operate as vicars for the white ruling class and a necessary buffer between the masses of the black people. Promise much but delivers if anything but nothing or little of nothing, Photo Thomas Sankara stated a soldier without any political or ideological training is a potential criminal. Also, to politicize the socialization process of white nationalism making it publicly known further strengthen their group solidarity. They used race to achieve white nationalism to achieve what? Use the state to achieve what? The interest of the dominant group makes no difference how small and have the power to influence and get things done group solidarity will make that happen.

Sociologist Raymond Hall surmised that it would probably only take a small increase in equal opportunity resulting from equal opportunity programs prompt whites to escalate their resistance to recent gains made by blacks. He noted that the Nazi final solution was not aimed at the unskilled and uneducated but a relatively small, highly skilled and educated Jewish population. Yet the engine of the emergence of the nationalist movement in Germany and in other Societies-has been the alienation of a significant group that has formed an ideology out of its grievances with the state that demands change (condition) and promotes a movement to affect it.

Here is the Cultural framework of a nation or group of people that shares a common ancestry, psychological distinctiveness and beliefs. Distinct from the state that is in pursuit to implement their self-determination. (political system) a low level of science of accommodation for the sake of the future of their race.

### WHAT ARE “FINANCIAL DESERTS” AND HOW THEY HURT BLACK COMMUNITIES?

#### BLACK PEOPLE AND MONEY

By Ryan Velez

Clayola Brown, president of the A. Philip Randolph Institute and a member of the Master Your Card African American Advisory Board, has noted two disturbing trends in the financial landscape that could disproportionately affect Black households and communities. In a Huffington Post guest blog, she writes that since 2010, more than 5,000 bank branches have closed, while expensive alternative financial providers like check cashers and payday lenders are growing rapidly. This places millions of Blacks in what she considers to be a trap.

Brown calls these traps that many Black and low-income communities are now enveloped in “financial deserts.” This is more than just a lack of good-paying jobs, though that is certainly harmful to Black communities. By this, she means neighborhoods where people do not have access to many mainstream financial tools. This, in turn, is more than just proximity to a bank branch. With no bank branches, an overload of alternative lenders, and a lack of local businesses to spend money at, many communities are the financial equivalent of a food store that only offers junk food.

“New York, Los Angeles, Chicago, Baltimore, Washington, D.C.—every major city and many rural areas in the United States have something in common. Walk through prosperous neighborhoods and commercial zones and you see a bank on every other corner, often under the buildings and businesses they’ve helped sprout,” Brown writes. Many African-Americans do not have these options present, instead relying on predatory payday lenders that hinder potential upward mobility.

While expecting banks to return to many of these neighborhoods may be folly, sadly, Brown believes there are options that Blacks can take to try and eschew some of these alternative providers. One is using prepaid cards, available at many local stores. Making the move to electronic payments over cash has many benefits, like accessible accounting tools, not waiting in line to cash any checks, being able to spend money at any time, as well as no worries about cash being stolen. Employers can also take part in the movement by shifting to payroll cards over paper checks.

### WHAT ARE “FINANCIAL DESERTS” AND HOW THEY HURT BLACK COMMUNITIES?

“Poverty isn’t just a lack of money—it’s also the lack of equal access to the tools that are essential for managing and growing wealth,” she says. Some of these methods outlined can help build and maintain wealth in many of these underserved communities, and in time, help them rise up.

## WHAT YOU NEED TO KNOW ABOUT RACE-BASED FINANCIAL DISPARITIES

FINANCIAL NEWS FEBRUARY 10, 2016

By Robert Stitt

Demo.org is an organization that takes Federal Reserve data and analyzes it to find trends and wealth divides in the United States. They particularly look at the divisions that occur along racial lines. One of their most recent pieces took data from the Survey of Consumer Finances and addressed the idea that black wealth has been increasing and the racial income gap has been closing.

The premise of the study was to dispel the myth that because a number of high-profile black Americans pull in a truckload of money each year in sports, music, entertainment, and politics that wealth in black America was improving. The report authors state that “To truly understand the difference in economic access, you must look at the top of American wealth, and be honest about what you find.”

One statistic showed that “nearly 4 Million white households have more than \$2.4 million in assets, while only 700,000 black households have more than just \$350,000. Over 8 million white homes have more than \$1.2 million, while out of 14 million black homes, less than 140,000 African American households are at this threshold.”

When addressing the disparity, one Duke University professor, William Darity, said that it comes down to history and inheritance.

“The major sources of wealth for most of the superrich are inheritances and in life transfers. The big reason is racial differences in access to resources to transfer to the next generation...enslavement, violence, Jim Crow, discrimination and dispossession of property have kept generations of African Americans from accruing the type of wealth that whites in the top 1 percent have today.”

If you are wondering what this means to you and me since we are likely not in that top 1 percent, consider this:

- Those in the top one percent spend considerable time and money lobbying for laws and political agendas.
- They do the hiring or control the hiring for the nation’s largest businesses.
- Educational institutions are run by these families.

When the top one percent does not just control the wealth, but the decision making, they can restrict access to groups that do not look, sound, or act like they do.

### WHY ARE SO MANY PEOPLE EXPERIENCING FEELINGS OF HOPELESSNESS, POWERLESSNESS, AND SELF DESTRUCTIVE BEHAVIOR?

By P. R. Thompson June 2016

**“In the beginning was the word, and the word was with God.....and the word was God!”** Today, we live in a world that is highly superficial, a world of deception, and a world where the majority of the people live in constant judgement of themselves and others. This is a “program” that most people have unconsciously chosen “contractually” at a very young and immature age. Words are made up of “letters”, and letters have been created to represent “numbers” that speak too energy based on frequency and vibration. In other words, you are a spiritual energy source with infinite possibilities! Now, let’s demonstrate this mathematical certainty for your benefit.

You are the creation of your thoughts (ideas), feelings (emotions), and your intentions. Everybody chooses consciously or unconsciously their “intentions” for WORDS! Your words that you choose, learn, embrace, and experience will validate or invalidate you. Most people are truly unaware of the tremendous power in which they possess. Most people give their power away on a daily basis to alien forces and unrighteous spirits. Who chooses your words and intentions for the words that you speak and hold value? Who is creating the desires and passions from the words that live inside of your vocabulary? Who takes the thoughts that you have and connects the thoughts to “intent” and create the ideas that you act upon? Why are so many people functioning in a degenerate lifestyle in a world filled with self hatred, violence, and unrighteousness? The answer is very simple....most people have no idea how their lives have been controlled by unscrupulous forces and wicked machinations!

Scholars have said that the average uneducated person has chosen to communicate with a vocabulary of about 500 words, while the educated person has chosen to communicate with a vocabulary of 5,000 words. However, there are people who have a 10,000 word inventory to have the ability to do. On the other hand, people who choose to use a limited vocabulary are easily manipulated and controlled by programming.

The average person operating with a 500 word vocabulary often expresses her/himself with abusive words and language that suggest she/he is totally unaware of the accountability of the words in which they choose to represent them! What is important to note here is that your personal choice of limitation or being unlimited to additional words and language does not necessarily determine your choice to practice righteousness or unrighteousness! Today, there are people who are functioning illiterate who desire righteousness from the heart, and there are scholars and educated people who possess more than 5,000 word vocabularies that have become practitioners of “unrighteousness” to the core of their being!

[CONTINUE](#)

### WHY ARE SO MANY PEOPLE EXPERIENCING FEELINGS OF HOPELESSNESS, POWERLESSNESS, AND SELF DESTRUCTIVE BEHAVIOR?

The point that needs to be made here is that when a person is speaking and thinking negatively with limited communication and exposure, the only option for this person to mature or progressively change would have to appear as a miracle! Giving ourselves permission to grow, develop, and mature has everything to do with our level of understanding as well as our natural ability to comprehend.

Since you and I create our own reality through the tremendous power of the conscious and unconscious mind, once you decide to “contract” with the “spirit of lack” instead of your abundance...the reality that we create will either come from an independent source of abundance (heavenly ideas), or the spirit of lack (hell on earth)! The accountability and choice always belongs to the individual’s self perception (world). Mathematically speaking, there is only two possibilities foundationally, and it is simply a choice. Do you desire to prolong your life and others (RIGHTEOUSNESS)?, or do you desire to destroy your life as well as others (UNRIGHTEOUSNESS)? Life is really this simple, everything else is simply a tool to keep you distracted from the nature of self and the purpose for life.

Remember, it is written that no one can escape the chastisement of God! God’s chastisement is His Love. God has given all humanity a power that none of the rest of His creation was given. The power of choice (unnatural thoughts and ideas). If you are experiencing feelings of hopelessness, or powerlessness, and self destructive behavior, it is time to come to a simple mathematical solution.

Continue to embrace the “spirit of lack” and face the consequences of the doom that you are creating for yourself! Or, simply understand that at any time you can decide to flip the script, and acknowledge, access, and apply your abundance to the equation that will truly elevate you above any situation or state from past conditioning! Satan has deceived the whole world, but you and I have to choose to be a part of that world in order to “contract” with such deception. Always remember that the only power that Satan (this WORLD) will ever have over you is the “power” that you give it by the submission of your will (thinking).

There are many worlds beside this one (the matrix), we are all being tested by the Creator of the entire universe to see if we truly believe! It is not possible to serve “righteousness” and “unrighteousness” at the same time, you must embrace one and deny the other!

The more that we have FAITH in ONE Supreme Source, the more all of our perceived problems and challenges begin to lesson and dissipate until there are no more. The state of mind to create “hopelessness” and “powerlessness” begins with self judgement (a deception from Satan’s world). Once you give yourself permission to submit or create a reality outside of this world’s system (the matrix), you will truly free yourself from the need to be validated by this world! The solution is very simple, it is hidden right under your nose...Your mouth!

**SOCIAL RENEWAL**

Rev Mwalimu Kevin  
July 05, 2016

Terrorist acts of rage violence and war consist of assassinations kidnappings, abandonment, suffering, despair, neglect crime, corruption, and chaos compounded by confusion when religious thought mixed with worldly thoughts without spiritual understanding becomes compounded with confusion without acknowledging the call for universal tolerance in readdressing social diversity moving from a persecuted minority to a privilege majority. Society

is under a social reconstruction where feelings are becoming desensitized, thoughts demoralized, attitude dehumanized, communication devitalized and activity destabilized resulting into the spirit of apathy the fight is constructed behavior vs. destructed behaviors. A desperate suffering from the loss of hope which is fatal and will be driven to rage and will respond to acts of violence, to be desperate is criminal a longing for affection a need to be seen voice to be heard. This longing of being deprived for affection and attention being subjected to offering so little chance for improvement is the cause of despair which is extremely dangerous and he or she also becomes reckless. It's not so much what terrorist acts represent to the contrary but the image of the culture it reflects, for that in the desperate mind he has become a custom to, therefore, the climate must be tempered.

CONTINUE

**SOCIAL RENEWAL**

Rev Mwalimu Kevin  
July 05, 2016

The Improvement of one's social condition, situation, circumstances and activity, people are born into a condition, placed in a situation, surrounded by circumstances and consequently due to some prior activity that has taken place. This sociological ideology concerning the development of knowledge determines the compatibility of an individual or group helps to formulate their reality.

Note mood colors perception and that perception shapes ones reality as result that becomes one perspective. The key features to this social structural construction vs. destruction, civility vs. uncivility becomes a way of life choice either good or evil, as a individual or a group, with in a region, anonymously or known setting up institutional social economic religious categories of class structure that represent and reflect the prevailing thought and behavior pattern of the culture and its climate. That which breeds status among them separate from us and odds with each other doing you must deal with the nature of a thing. If there be any victim it is in the socialization, institutionalization and globalization of the culture climate that produces a type of people. How individuals perceive themselves and their race or peers and group depends on their social position and entitle status. Regardless of how they are classified or identified previously and other words it's a thing of status. A crime is when you are unwilling and unable to make due on your promises which is fraud it is deceitful of a sharp practice or breach of confidence perpetuated for profit and to gain some unfair and dishonest advantage as a result you have law as a remedy.

Continue

**SOCIAL RENEWAL**

Rev Mwalimu Kevin

July 05, 2016

In conclusion people seem to resort to terrorist acts of rage violence and war when previous available channels of communication has been closed off and other forms of protest have proved ineffective or futile. When someone dominates and controls a situation which seems even more intransigent desperate people will resort to terrorist acts of rage, violence and war this action is taken to get the attention of those who controls there situation. The situation must not be so overwhelming were personal animosity takes precedence over peace and righteous indignation. People have been and still are being exploited the warning about the future collaboration and mistreatment of people across the globe must end this go beyond race class gender and religion. The key to social renewal is our dialogue one with another in a respectful manner and therefore re-establish healthy social relationships one with another. With ourselves in our homes, places of worship or gathering communities and nations are the basic frame work of the people's common way of life.

'CAUSE I AM BLACK?

Theft, bewilderment, loneliness, pain unexplained, for who's gain? ocean's away -- taken fight, lost, in the belly, sailing never to return, shackled, beaten, hardly eaten, soul weakened confused, quiet, trust gone sold, work, fields, not knowing, dreams cast away hopeless, helpless, alone enough to be insane? shackled, cope, bred, whipped blood shed, escape, fled, drinking gourd, wading, dogs, bounties, cold nights -- death can hope remain? Tamar Rice, playing with a toy gun.... Justified

Freddie Gray, had a pocket knife.... Justified

Sandra Bland, didn't put out a cigarette.... Suicide? Justified

Eric Garner, selling cigarettes.... Justified

Michael Brown, walking in the street.... Justified

still paying the ultimate price wars and rumors, booming, looming jail awaits no freedom, no justice, no peace, no life still fighting, just for being black in America African American, negro, black Stopped in cars, black last hired, first fired, black not hired, black unity, people come together, unity equality, righteousness, freedom we fight we pray we now can say I see myself in the White House First African American President of America Let's see the change to come

"I'm not racist, I don't like his policies."

He's a secret Muslim.... Policies?

He supports the Muslim brotherhood.... Policies?

He's a Kenyan.... Policies?

He's the antichrist.... Policies?

He's a racist.... Policies?

Change for many, for some

For those who fought and are not here

For those who persevered.
