

## **Social Reconstruction**

Common Humanity Mission INC Speaks on the need for mature social discourse as we are under a social reconstruction as it pertains to our feelings, thoughts, attitude, language and activity. Whereas our feelings are becoming desensitized thoughts demoralized, attitude dehumanized language or communication devitalized and activity or action destabilized.

Our Motto: To creatively communicate a clearer and more precise image to the world.

Our Mission: To reconnect the disconnected mature community that is inside us.

HERE ARE 5 FUNDAMENTAL BASIC COMPONENTS OF THIS PROCESS:

- 1) Understand: understanding the need to restore social credibility.
- 2) Tolerance: tolerating the need to readdress our social diversity.
- 3) Temperance: tempering the need to revise social coherency.
- 4) Confidence: confiding in the need to replenish social continuity.
- 5) Respect: respecting the need to reclaim social solidarity.

About social reconstruction-is reclaiming the underdeveloped image of a people who has been left in a confused and a bewildered state of mind and looking for easy but yet tangible solutions. In so much they are unwilling and unable to consistently engineer, manufacture and produce for themselves the necessary tools to become self-sustaining due to their Socio-Economic status this result in producing abnormal and negative behaviors.

ABNORMAL BEHAVIORS:

- 1) Underestimated feelings/Poor concepts.
- 2) Undermining thoughts/Negative thoughts.
- 3) Underemployment self-defeating attitudes.
- 4) Under educating language/Poor communication.
- 5) Underhanded activity/Lack of integrity.

These are the behaviors we seek to bring to an end. When groups of a people are left incompetent or without problem solving skills, they are unable to design and carry out programs for their own advancement, which result in fear, frustration and more self-destruction.

Ultimately, therefore, our mission is a life giving mission, which requires the re-learning of some old skills and behaviors and the acquisition of some new ones. In conclusion the emphasis of the student that matriculates at any institutions of higher learning who has not yet develop the skill on learning how to receive their degree of self worth are left with inability of learning how to appeal to the integrity and dignity of his or her own humanity what does this say to the whole of the greater humanity as Bob Marley would say none free us form mental slavery but our minds.

About the life giving mission we are all endowed to live a quality life. As a result the language of this mission is spiritual or natural unity of competent consciousness that address the facilitation process of our state quality and well being. Providing the ground work in the academic environment for the preparation and freedom for quality living.

Protecting the ground work in the intellectual environment for the preparation and independence for quality living. Preserving the ground work in the financial environment for the preparation and stability for quality living. Prevailing in the ground work in the spiritual environment for the preparation and understanding for quality living.

The four keys that unlocks the doors of our life giving mission address four periods for quality living.

- 1) Need: meeting period that's based on incentive s and motive of intent.
- 2) Issue: resolving period that's based on initiatives and determination.
- 3) Problem: solving period that based on environmental influences.
- 4) Question: and answer period on indicators and directives.

What we are soliciting support for to aid and assist us in the operation of our mission.

- 1) The administration division as it pertains to the operation of our mission.
- 2) The facilitating division as it pertains to the operation of our mission.
- 3) The coordinating division as it pertains to the operation of our mission.
- 4) The aggregated division as it pertains to the operation of our mission.
- 5) The marketing division as it pertains to the operation of our mission.

This concludes the function and the operation of our life giving mission of reconnecting the disconnected mature community from within fulfilling our motto which to communicate clearer image to the world.
