

THE STATEMENT

The greatest enemy to humankind is Ignorance. Ignorance is the blind side of life. It is important to know that all you know is what you have learned and all you have learned is not all there is to know. Let's look at 4 types of schools: religious, public, charter, and private. The primary goal of education is a socialization orientation and which you learned this in a class room. So what we are dealing with is the formalization of schools of thought against the existence of the elements that went into the school of thought unto the steps of development this was the purpose of the step pyramid. In schools of thought we are dealing with forming and shaping the development of the elements of schools of thought. This thought is an image. In supreme mathematics it is the power of refinement. Knowledge, wisdom, understanding, culture, or freedom, power, or refinement, equality, god, build, or destroy, born cipher. Darkness and light, all things are created in darkness and revealed through the reflection of light also it is the, I am the key that unlocks the door of one's self image. The law of self image is the power of refining that image physiologically and psychologically for the oppressed is learning to adjust to the image of the oppressor. There you have our struggle. This image governs our accomplishments or the lack thereof through pictures you have of your potential. A child learns information in a picture form producing objects of expression the older he or she becomes they become words of expression than the words create meaning and definition expressed as in emotion. Hitler tried to destroy the sediments of the so-called Jews. However, prior to 1933 the most successful economic group was the black family orientated community 90% WAS married and stayed married. The number now is less than 40% by the creation of social programs the something for nothing was set up to destroy the family structure. The nation of Islam under the leadership of Elijah Mohamed about economic security!

Achieving black unity

Pooling resources

Reframing from unnecessary criticism

Avoiding jealousy

Working collectively

I always state that adequate cooperation leads to proper communication that's how we can proficiently and effectively coordinate our power.

That which occupies the mind is substance meaning the law of unity creates everything that's the only standard I know. White nationalism was the bases of slavery and eventually when slavery reached a saturation point white nationalism invented another form of slavery called colonialism and after colonialism they computerized colonialism with a form of racism within the structure itself was inequality.

White nationalism and the disrespect it has toward African solidarity meaning the political agenda of white nationalism in its concept is designed to exploit and control the national economy its raw material labor and technology. To disrespect is a cultural behavior however, before you destroy the solidarity you must first disrupt the continuity of that solidarity throwing off the equilibrium and the balance nature. However, Built with in African social structure was equality among male and female this matrilineal system was built to sustain and maintain the balance of nature this type of solidarity serves as a prerequisite for any who seeks to obtain any level of social status as well as stability. Outsiders challenged this line of descent that came down through the female side of the family that best served for the preservation of family unity. Let's do so math there about 36 million African Americans in the US minus African children there are about million adult black 26.7 million African American adults 14.7 women to 12 million adult black men. There are about 2.7 million more adult black women than men total adult black men 11 million 985 rounded of to 12 million out of 12 million adult black men exactly 1 and 9 of them are in prison of them that are in prison 1, 330, 335 percentage of black men in prison. From that it leaves 10, 654,665 about 11, 540 confirmed cases of HIV among black men and 127,359 black men living with aids the total 138,889 black men with aids/HIV 1 percent of the population that leaves the total at 10,515,766. 38.5% or 4,614,225 black men are married. Which leaves 5,901,541 10% or 1,198,500 black men identify as gay or either bi sexual the percentage of black that are gay or bi sexual make of 10% of the of black male eligibility, so it leaves about 4,703,041 according to us census bureau men 15 and over has never been married 44% or 2,069,338 of the 4,703.0641 single black men never been married so 2,633,733 eligible black men left. 24.3% of black adult women will marry leaving a remainder of 10.3 million black women still unmarried 10.3 million black women to only 2,633,703 million black men roughly a 4to 1 female to male ratio, mathematically impossible for 10.3million African American women to have a man each one to herself unless you change the math. How do you change the math because when you change the math you change the course of history?

The scientific theory of Aristotle says the difference in material substances is a matter of balance meaning nature because order is the manifestation of harmony then that balance must be changed. Since white nationalism is about status control over governmental politics' we must know that the politics are immersed or baptized in corruption. My Ethiopian friend Alemayehu Hagos and his book exposing satanic lies of Western history that around 133 BC a family of bandits' murders and thieves organized into groups as an army which merely mean strength, Led by Cicero (106-43bc) who coined the term religion in language of Geez which means spiritless . With that they went about robbing and plundering the possessions of others. Then another family in 122bc Gaius set out butchering and murdering robbing as well. As a result, political parties emerged from this sick behavior of justification of centuries of murdering and banditry without legally being institutionalized parties. So the decided to institutionalized themselves in the island known as England. These political parties of England were named Tories which means bandits and the wigs which means horse thieves and murders. So these political parties took on political meaning.

To be institutionalized is to be officially placed in a well structured established system. Kwamane Torue defined institutionalized racism as the collective failure of an organization to provide an appropriate and professional service to people because of their color culture or ethnic origin. So the system is officially committed to act inappropriate and un-professionally to provide adequate services to its own citizen it has failed this is delinquency at is best and it needs to be rehabilitated. 1 out of 3 African Americans live in poverty 70% of our elderly are without financial assistance 1 out 3 are either on parole or in prison 2 million children at least 1 of their parents are in a state or federal institution. 4 out of 10 are on death row we have the largest amount of black politicians but yet blacks are being incarcerated at alarming rate 7 out of 10 cannot read beyond fourth grade level which means they are classified as functioning as illiterates, which creates as ignorant hostile environments. Then again 70% are headed by single women households blacks make of 41% of all abortions. Poverty and illiteracy is 8 to 9 times higher than that of whites. 1 out 21 is to be expected to be murdered by gun fire. 3 to 4 percent of us are lawyers 1 to 2 percent are architects 3 to 4 percent are medical doctors. However, blacks are highly represented in sports and entertainment. Professor Hardy states that silence is the hallmark of oppression. To just stand back in watch and accept the mental emotional and physical abuse has become detrimental to the physic is has become as L.L cool J would say something like a phenomenon a common occurrence. Until it has numbed our membrane, That s why a say we are under a social reconstruction we are feelings has become descent zed thoughts demoralized attitude dehumanized speech language or communication devitalized and actions or activity destabilized white nationalism and its disrespect it has toward African solidarity.

By white I mean, a small minority of people whose social orientation is philosophically designed to wage psychological warfare on non white people through image control and communication development. Malcolm X stressed that when black people change the image in their own mind he or she will always suffer from parental and juvenile delinquency. I am speaking on behalf of Common Humanity Mission Inc; we are a transitional life skills development agency that is designed to facilitate mature social discourse in doing so we will be promoting the maturation process such as understanding tolerance temperance confidence and respect. Our mission is to reconnect the common mature benevolent community from within independently promoting the maturation process to specific populations through facilitating mature social discourse. The specific populations are students of matriculation abandoned population, neglected population homeless and ex offenders' population. We have come to know you are born to matriculate if that's not properly being facilitated that leads to abandonment than feelings of neglect and what will follow after that you become disconnected from home and America will find a home for you in the prisons.

1 out of every 100 Americans is locked up. Therefore, the effort of our mission is centered on helping to aid and assist as many as we can to overcome their social inadequacies. There is a social reconstruction going on where our feelings are becoming more desensitized thoughts demoralized attitudes dehumanized speech or language as it pertains to communication being devitalized and finally activity destabilized. When Feelings become desensitized the task of understanding for the need to restore social creditability prohibits full recovery from structural inequality built in the system of white supremacy racism. When the thoughts become demoralized the effort of tolerance for the need to readdress social diversity prohibits full recovery from the structural inequality built in the system of white supremacy racism. When our attitude becomes dehumanized the time of temperance for the need to revise social coherency prohibits full recovery from structural inequality built in the system of white supremacy racism, when the speech language of communication becomes devitalized the energy of confidence for the need to replenish social continuity prohibits full recovery from the structural inequality built in the system of white supremacy racism. When the action or activity becomes destabilized the nature of respect for the need to reclaim social solidarity prohibits full recovery from structural inequality built in the system of white supremacy racism. The plat form in which I speak from is academic freedom intellectual independence financial stability and spiritual understanding. Marcus Garvey said there was something laid down for white children to go by Garvey aimed to organize the instruction of Black children knowing that white people. Has a system a method a code of ethics a philosophy and finally a set of creed to guide its life and Blacks needs a similar code.

Common Humanity Mission Inc has the moral code of conduct as it pertains to the challenges that we face that puts our faith in each other in doubt. Confusion when in doubt we need a healable theory in order that we may learn from our ignorant experiences. (theorist) 2) chaos when in doubt we need an examinable strategy in order that we may learn from our spiritual experiences (strategist) 3) when in doubt of order we need encourage able mobilizing in order that we learn from cultural experiences (mobilize) 4) when in doubt of law we need knowledgeable organizing in order that we may learn from our historical experiences (organizer) 5) when in doubt of ethics we need teachable material in order that we may learn from our generic experiences (materialist) 6) when in doubt of customs we need a facilitable memory in order that we may learn from our social experiences (when memory fails give a lecture in order further restore memory) In finally when in doubt of culture we need a communicable idea that is ideal that we may learn from our everyday experiences (idealist) We must come to terms with the intentions of an invading force called white supremacy racism if not we will suffer from disenfranchisement as martin Delany made it clear in the 1800.

It is not being able to overcome our grievances that disable our ability to become a franchised people meaning to have an economic infrastructure that either has municipal or regional power that we can manufacture produce and trade our own goods and services it would give us some leverage of negotiating power this must be organized as a trade union. The purpose of labor is to help us overcome our grievances in doing so you make alliances and alliances become allies unto socio-economic sustainability. We need to establish a social trade union to give us the solidarity economic trade union that will give us financial stability a cultural trade union that gives us a positive array of confidence in our ability to create. We need an education trade union that will help still in us the value of self worth. The exchange is social solidarity economic financial stability positive cultural confidence educational values of self worth making this a religious practice. Far too many of us are still thinking in the modality of European intellectualism. If you are psychological damage through cultural brain washing you cannot intellectualized the problem. White supremacy is a power base structure created through a constructed systematic matrix program using words languages precepts principles theories and ideologies to control the world's population leaving nothing to chance. All of the infrastructures were constructed on the bases of so-called white superiority religion; politics education sexuality entertainment and every area of activity serve as constant reminders of superiority. To create is the standardization of a test that appropriately measures meaning and manner of processing information, something that is considered by an authority by general consent as bases of comparison, a rule or a principle for the bases of judgment.

White is a racial term with in a social setting or group that seeks to remain in a supreme position of power and domination. Its policies procedures and programs are mandated by elitists' mentality of exclusion which gives justification of superiority as a rule over lesser groups. This is also, strategically done to prepare the next generation for the succession of power this certainly becomes a way of life. In order for one group to dominate over another you must erase the memory suppress the culture that was practice teach supremacy control the institutions which becomes institutionalized thinking control the wealth through segregation isolation and ostracizing which is socially immoral the Irish can identify with this as well. The white supremacist mentality does not take you as you really they make you out what they think and want you to be. They will even lie to themselves convince themselves in order to adapt to their reality.

The adaptive process is to bend the truth that they are suffer from a mental disorder perception disorder disillusion of grandeur phobia and projecting blame on the victims. There mentality is this when they go to take other people resources they say now we depend on you to give us the resources as a prerequisite for your dependence you can depend on us to protect you from yourselves if not you can depend on us protecting ourselves against you because why is that because it's not about dependence it's about independence. The supremacist form of negotiation is violently corrupt. The environment that shapes the mentality deals with aesthetics. To be land poor people poor and resource poor what would be your outlook on life, out of this becomes scarcity and the completion for what remains than intra-tribal wars internal conflict amongst the German Anglo Saxon French British European do destroy their competitors, that be the completion. Doing so reversing the process of one's outlook on life, once you change the image of a people and then control the way they communicate that image toward themselves is the culturally brain wash them in fear failure folly and frustration. Fear is the result of failure and failure is the result of folly, and folly is the result of frustration and you are frustrated when you don't get what you expect that which is not reciprocated. That which not reciprocated from the supremacy of white NATIONALISM DIS respect for African solidarity as if they have the pre-conceived notion that we are a conquered people this is the consensus of supremacy.

Traditional African philosophy is anthropocentric interpreting reality in terms of human values and experiences what which helps to determine ones outlook on life. So the purpose of African solidarity is in preserving the union. When you have no interests in preserving the union than you become unsympathetic and to be unsympathetic is to be limited in understanding of your traditional social orientation. I am attempting to adequately and properly diagnose the causal root of this epidemic plague I will deal with 5 of them taking from Marimba Ani book Yurugu an African centered critique of European cultural thought and behavior.

- 1) Yurugu: a being in Dogon Mythology which is responsible for disorder in the universe. This is a being conceived in denial of the natural order, which then acts to initiate order, and promote disharmony in the universe. In African cosmology such a being is deficient in spiritual sensibility, is perpetually in conflict, is limited cognitively, and is threatening to the well being of humanity.
- 2) Cultural imperialism: the systematic imposition of an alien culture in the attempt to destroy the will of a politically dominated people. The mechanism of a cultural imperialism causes cultural insecurity and self doubt within the dominated group. Separated from their ancestral legacy they lose access to their source of political resistance.
- 3) Nationalism: ideological commitment to the perpetration advancement, and defense of a cultural, political, racial entity, and the way of life. This use of the term is neither limited to, nor determined by boundaries of a nation state as defined euro centrically.
- 4) European nationalism: all forms of behaviors of feelings thoughts attitude speech language of communication which non European hegemony/global white supremacy.
- 5) White nationalism: an expression of European nationalism which identifies Caucasian racial characteristics with superiority and African racial characteristics with inferiority.

Documentary evidence leads me to George G.M. James book *Stolen Legacy* preferable chapter 4 the Egyptians educated the Greeks the effects of Persian conquest 525 BC. The attraction was there on account of their supreme leadership of civilization or in being civil. The immigration of the Greeks for the purpose of their education begins as the result of the Persian invasion. And continued until the Greeks gained possession the land and access to the royal library through conquest of one called Alexandria the great. For the first time in Egyptian history Ionians and Cairns were employed as mercenaries in the Egyptian army 670 BC interpretation was organized through a body of interpreters and the begin to gain useful information concerning the culture of the Egyptians. For the first time as well there were non-native Ethiopian kings Ethiopia was distinctively a European product. The slaughter in Fallujah was done not by American military but by trained mercenaries do you not know that possibly 85% of Muslims are non Arabs? In addition, there is a private army that the us government has quietly hired to operate in international war zones and on American soil with its own military base fleet of twenty or more aircraft and twenty thousand troops at the ready the universal code of military justice 64 stat 109. In the use chap. 47 is the foundation of military laws in the United States it was established by united state congress in accordance with authority given by the constitution in article 1 section which provides congress shall have power to make rules for the government and regulation of the land and naval forces, militarized by president executive order. John f Kennedy stated for we are opposed around the world by a monolithic and ruthless conspiracy that relies on covert means for expanding its sphere of influence on infiltration instead of invasion on sub-version instead of elections on intimidation instead of free choice, on guerillas by night instead of armies by day. It is system that has conscripted vast human and material resources into building of a tightly knit highly efficient machine that combines military, diplomatic intelligence economic, scientific and political operation.

Robert Kennedy stated the problem of power is how to achieve its responsible use rather than its irresponsible and indulgent use of how to get men of power to live for the public rather than off the public. Liken onto Europe depending on Africa for its monetary stability as well as proprietary's in the black community sucking what blood from what's left from the black community. Spending power of government and buying power of the consumer money should not be the master but the servant of humanity. James Wilkes Booth was a mercenary that worked for the international banking system. Abraham Lincoln said my paramount objective is to save the union and it and it not either save or destroy slavery. If I could save the union without freeing any slave I would do it. The question how do we protect our buying power? Otto von Bismarck said that the division of the United States into federations of equal force was decided long before the civil war by high financial powers of Europe. These bankers were afraid that the United States, if they remained as one block and as one nation would attain economic and financial independence which would upset their financial domination over the world.

The Federal Reserve act 1913 establishes legalized the invisible government of monetary power it is the worse legislative crime of the ages paraphrasing what Charles Lindbergh reprehensive of Minnesota. The business cycle cause high prices all the federal reserve board will do will be to lower the rediscount rate producing an expansion of credit and rising stock market then when business men are adjusted to these conditions it can check prosperity in mid career by arbitrarily raising the rate of interest. It can cause the pendulum of a rising and falling market swing gently back in forth by slight changes in the discount rate our cause violent fluctuations by greater rate variation and in either case it will possess inside information and advance knowledge of the coming change either up or down. This is the strangest most dangerous advantage ever placed in the hands of a privilege class by any government ever existed. The system is private conducted for the sole purpose of obtaining profits from the use of other people's money they know in advance to create panics to their advantage. They also know when to stop panic. Inflation and deflation work equally well for them when controlled finance a super-state controlled by international bankers and international industrialist acting together to enslave the world for their own pleasure. Reprehensive Louis McFadden (D) PA. Change is a condition situation and circumstance consequently of action taken place. It involves the engagement of an evolutionary process for the benefit of progress this progress is liken unto contest or struggle ending in triumph.

Let's look racial politics connotes a specific political and social agenda policies of racial discrimination, upholding race as an ideological position of biological practices. Race as an ideological position philosophically comes out of a social construct. Civilization is not about technological development but social responsibility that is literate.

For me race is geographically identified by its ethics that evolves into customs than into a culture and that becomes the totality of people practice. But then again scientifically there is no such thing as a race the geographic is applied to an image to uphold that's the position of a race competing to uphold and image as result socially this becomes a biological practice. This liken unto a marriage blood line that are interconnected down through the years ask the Warburg's shifts. Rothschild's, Aldridge's Rockefellers and the Morgan's. Who convene at Jekyll Island in the early 1900's? These banking families help to bring into effect the Federal Reserve Bank. James Garfield said in 1878 whoever controls the volume of money in any country is absolute master of all industry and commerce and when you realize that the entire system is very easily controlled one way of another, by a few powerful men at the top you will not have to be told how periods of inflation and depression originate, LATER he was assassinated. In the United States today we have in effect two governments we have the duly constituted government. Then we have independent government in the Federal Reserve System, operating the money powers which are reserved to congress by the constitution, representative Wright form TX. Woodrow Wilson stated that we have become one of the worst ruled one of the most completely controlled governments in the civilized world no longer a government by a vote of the majority, but a government by the opinion and duress of a small group of dominant men. In conclusion some of the biggest men in influence in the United States in the field of commerce and manufacture are afraid of something. They know that there is power somewhere so organized so subtle so watchful so interlocked so complete so persuasive that they better not speak above their breath when they speak condemnation of it in addition Dr. king the ultimate tragedy is not the oppression and cruelty by bad people but silence over that by the good people.

Rev Mwalimu Kevin CHMINC

"When you control a man's thinking, you do not have to worry about his actions. He will find his "proper place" and will stay in it. You do not need to send him to the back door. He will go without being told. In fact, if there is no back door, he will protest until one is made for his use. His education demands it."

-Dr. Carter G. Woodson; The Miseducation of the Negro.
